

MOHAMED GAMAL

Senior Odoo Developer | AI & Data Analyst | Python Expert

+20 1016843962 | mohammedgamal37130@gmail.com | linkedin.com/in/mohamedgamal37130 | Cairo, Egypt

PROFESSIONAL SUMMARY

Senior Odoo Developer with extensive experience delivering Odoo Enterprise backend solutions in production environments. Specialized in custom module development, business workflows, security rules, REST API integrations, and performance optimization using Python and PostgreSQL. Proven ability to manage the full backend lifecycle—from requirement analysis and story sizing to development, testing, and CI/CD deployment. Strong foundation in Data Analytics and Applied AI, enabling intelligent automation, reporting systems, and decision support within ERP environments. Experienced across Risk Management, Compliance, Food Security, and Government Administration sectors.

PROFESSIONAL EXPERIENCE

EJAD Digital Solutions Co | Senior Odoo Developer | Saudi Arabia | *Apr 2026 – Present*

- Develop and maintain Odoo Enterprise backend solutions across multiple concurrent projects
- Design scalable custom modules, business workflows, and automation features
- Optimize system performance through ORM tuning and backend refactoring
- Collaborate in Agile/Scrum teams using GitLab CI/CD pipelines

EjadTech | Odoo Developer – Odoo Enterprise | Egypt / Saudi Arabia | *Sep 2024 – Mar 2026*

- Led end-to-end backend implementation across multiple projects from requirements to production deployment
- Developed custom modules including models, business logic, security rules, and workflow automation
- Built third-party integrations using REST APIs and scheduled jobs
- Improved system performance through PostgreSQL query optimization and code refactoring
- Delivered features using Agile methodology with CI/CD pipeline management

DOTec Professional Corporation | Odoo Developer (Remote Contract) | United States | *Nov 2025 – Present*

- Delivered Odoo customizations, bug fixes, and backend enhancements for US-based clients
- Implemented scalable ERP solutions aligned with complex client requirements

Margins Developments | Odoo Developer (Contract) | Cairo, Egypt | *Oct 2025 – Jan 2026*

- Customized CRM, Sales, and Accounting workflows to match business-specific processes
- Developed automated reports and workflow automation to improve operational efficiency

Computing Gate for Information Technology | AI Software Engineer (Part-Time) | Saudi Arabia | *Aug 2025 – Dec 2025*

- Designed and implemented ML/DL models for real-world enterprise applications
- Prepared datasets, trained models, and optimized performance for production deployment
- Integrated AI components into backend ERP systems to enable intelligent automation

Digital Egypt Pioneers Initiative (DEPI) | Data Scientist | Cairo, Egypt | *Mar 2024 – Sep 2024*

- Built computer vision models achieving 98% accuracy using YOLO architecture
- Improved object detection speed and overall model performance through optimization techniques

ExploreAI Academy | Data Scientist | Remote | *Jun 2023 – Aug 2024*

- Delivered end-to-end data science projects spanning data analysis, modeling, and business insight generation
- Communicated actionable insights to stakeholders to support strategic business decisions

- Cleaned and analyzed large datasets; created interactive dashboards to support decision-making

TECHNICAL SKILLS

Odoo & ERP: Odoo Enterprise v14–v18, Custom Module Development, ORM, QWeb Reports, XML Views, Security Rules, Automation, Workflows

Languages: Python, SQL, JavaScript, HTML/XML, CSS

Databases: PostgreSQL (query optimization, complex queries), relational database design

AI & Machine Learning: Machine Learning, Deep Learning, Computer Vision (CNN, YOLO), LLM-based Automation

Data & Analytics: Power BI, Tableau, Excel (dashboards & reporting), SQL analytics

DevOps & Tools: GitLab, CI/CD Pipelines, Unit Testing, Version Control (Git)

Methodologies: Agile, Scrum, Requirement Analysis, Story Sizing, Performance Optimization

EDUCATION

Beni-Suef University — Master of Computer Applications (MCA), Computer & Information Sciences
Sep 2020 – Jun 2024 | Grade: Very Good

ExploreAI Academy — Data Science Program
Sep 2023 – Jul 2024

CERTIFICATIONS

- Introduction to Data Analytics
- Foundations: Data, Data, Everywhere (Google)
- Flutter Clean Architecture [2022] – Flutter 3
- The Complete Dart Development Guide
